Paediatric and Perinatal Epidemiology 1995, **9**, 471–472

Subject Index to Volume 9

AIDS 1–29
Alcohol abstinence
  and birthweight 105–108
Antenatal – see Prenatal
Antepartum haemorrhage
  and cerebral palsy 171–184
Apgar, low
  and cerebral palsy 156–170
Asphyxia at birth
  and cerebral palsy 156–170
Asthma, family history
  and SIDS 256–272
Attitudes, maternal 42

Bedding
  and SIDS 256–272
Birth to Ten 109–120
Birthweight
  and alcohol abstinence 105–108
  and ethnic origins 59–73
  and immigrant status 441–454
  and mental retardation 455–467
  and mother's birthweight 391–405
  and perinatal mortality 80
  and violence in pregnancy 44–45
  in Africa 185–200
  in Belgium and USA 273–280
Birthweight, low 185–200
  and death from infection 351–362
  time trends 201–218
Birthweight of mother 391–405
  and infant mortality 391–405
  and maternal height 396
  and maternal weight 396
  and race 391–405
Breast feeding
  and HIV transmission 10–12
  and SIDS 261–262

Caesarean section
  and HIV transmission 6–10
Cause of death 82–83
Cerebral palsy 171–184
  and antepartum haemorrhage 171–184
  and birth asphyxia 156–170
  and preterm delivery 171–184
  in twins 135–145, 146–155
  time trends 146–155
Confidential enquiries 431–440
Congenital malformations 331–340
  and Lyme disease 320–330
Congenital dislocation of hip 90–97

Death of co-twin 141–143
Decision making 30–32
Diet 98–104
Diet, maternal
  and smoking 307–319
Down's syndrome 331–340

Education, maternal
  and infant mortality 69–70
  and violence in pregnancy 38–39
Epilepsy – in twins 135–145
Ethics 370–378, 468
Ethnic origin
  and birthweight 59–73
  and preterm birth 59–73, 281–295

Fertility rate
  time trends 213–215
Fetal death
  and smoking in pregnancy 381–390
  and violence in pregnancy 35–47
  in twins 135–145
Fetal distress
  and violence in pregnancy 35–47

Heating
  and SIDS 256–272
Height, maternal 396
HIV 1–29
Housing
  and SIDS 261–263

Immigration status
  and birthweight 441–454
  and preterm birth 441–454
Immunisation
  and SIDS 256–272
Infection 48–58, 171–184, 185–200
  death from 351–362
Intelligence – See IQ
Intergenerational effects 391–405
IQ
  and birthweight 455–467
  of twins 141–142

Lyme disease, maternal 320–330

© 1995 Blackwell Science Ltd.

Malaria
and low birthweight 185–200
Marital status
and infant mortality 69–70
Maternal age
and infant mortality 69–70
and perinatal mortality 78
and violence in pregnancy 35–47
Mental retardation
and birthweight 455–467
Mortality, fetal *see* Fetal
Mortality, infant 69, 391–405
and ethnic origins 59–73
and infection 351–362
and maternal education 69–70
Mortality, maternal
time trends 201–218
Mortality, neonatal 69
and ethnic origins 59–73
in Belgium and US 273–280
in twins 135–145
time trends 204
Mortality, perinatal
and birthweight 80
and small-for-gestational age 431–440
in Nepal 74–89
in Scandinavia 201–218
time trends 201–218
Wigglesworth classification 431–440
Mortality, postneonatal 69
and ethnic origins 59–73
in twins 135–145
time trends 205

Neonatal mortality
and small-for-gestational age 431–440
birthweight specific 420–430
time trends 420–430

Parity
and infant mortality 69–70
and perinatal mortality 79
Past obstetric history 48–58
Perinatal mortality *see* Mortality
Pre-eclampsia
and cerebral palsy 171–184
Prenatal care
and infant mortality 69–70
and low birthweight 185–200
Preterm 125–129
and cerebral palsy 171–184
and ethnic origins 59–73, 281–295
and immigrant status 441–454
and maternal birthweight 397
and mental retardation 455–467
in Belgium and USA 273–280
in France 296–306
Pyrexia, maternal intrapartum 52

Race 391–405
Randomised controlled trials 130–133, 250–253
Relationship with partner
and violence 38–41

Sampling efficiency 341–350
Sampling strategies 219–224
Screening
and congenital dislocation of hip 94–95
Season of birth
and congenital dislocation of hip 93
Seizures
in twins 135–145
Sepsis 48–58
SIDS 256–272
in Aborigines 406–419
postmortem review 406–419
Sleeping position
and SIDS 256–272
Smoking, in pregnancy 381–390
and death in childhood 381–390
and infection deaths 381–390
and maternal birthweight 396
and neonatal death 381–390
and postneonatal death 381–390
and SIDS 381–390
and stillbirth 381–390
Smoking, maternal
and diet 307–319
and SIDS 256–272
and violence in pregnancy 35–47
Socioeconomic status
and low birthweight 185–200
Stress
and violence in pregnancy 38–40
Study design
Birth to Ten 109–120
Ultrasound survey 225–240

Termination, previous
and neonatal sepsis 48–58
Transmission
of HIV 1–29
Twins
cerebral palsy 135–145, 146–155
mortality of 135–145
neurological outcomes 135–145

Urinary tract infections
and cerebral palsy 171–184

Violence
and pregnancy 35–47

Water source
and low birthweight 190
Weight of mother
and birthweight 185–200, 396
Weight gain in pregnancy
and maternal birthweight 396
Wigglesworth Classification 431–440
